CLEANING BATH FOR COPPER COINS

#321584

This cleaning bath removes oxidation from **tarnished copper (Cu) coins**. This bath should only be used to clean coins which are oxidized or tarnished. It is not suitable for antique coins with uniformed coloring, as it will result in patina damage. Bath can be used to clean a number of coins at once, and care should be taken to only clean coins of the same material together. To clean different alloy types, clean each type separately. This cleaning bath will give a matt finish and will not polish to a deep shine.

Instructions for use:

1. Place the coins into the basket
2. Make sure that multiple coins do not touch each other.
3. Lower into the bath.

4. TIMING

The heavier the tarnishing, the longer they will need to be in the bath. In most cases, 3 to 5 minutes should be sufficient.

5. For extreme tarnishing (e.g. on coins which have been buried), coins can be left in bath for up to 20 minutes, however this requires constant supervision and the coins should be removed as soon as the oxidation has been removed.
6. Hard deposits can be gently removed with a soft brush (toothbrush) and green rust with a sponge; after removal dip briefly in the bath again.
7. After cleaning, take out the basket with the coins and rinse under running water.
8. Gently pat the coins dry with a soft cloth. Do not rub.
9. Remove liquid after use.

USE TO CLEAN

Copper and copper alloy coins (copper, bronze, brass)

IMPORTANT NOTICE!

- **DO NOT USE** on bi-metal or cupronickel coins, for example Australian decimal coins.
- **DO NOT USE** on silver and gold coins, for example Australian shillings and florins, or gold sovereigns.
- **DO NOT** rub dry.
- **DO NOT** get in eyes or on skin

CAUTION

- The bath contains acids, which may attack stainless steel (i.e. sinks) and other acid-sensitive surfaces, so please take care when using it.

CAUTION: ACID IRRITANT!

- Can cause serious eye damage.
- Can cause skin irritation.
- If medical advice is needed, have product container or label at hand.
- Keep out of reach of children.
- Wear protective gloves, eye protection, face protection.
- IF ON SKIN! Wash with plenty of soap and water.
- IF IN EYES! Rinse cautiously with water for several minutes.
- Remove contact lenses, if present and easy to do.
- Continue rinsing.
- Immediately call a poison centre or doctor.

CONTAINS

Contains: phosphoric acid, fatty alcohol polyglycol ether, alcohols C10-16 ethoxylated propoxylated.

Contains according to European Union Law (EUR-LEX):

Regulation (EC) 648/2004: <5% non-ionic surfactants, scents, citronellol.
